

## Texan Lab Expanding with opening of its 4<sup>th</sup> Testing Laboratory in India at Tirupur

Texan Lab, one of India's oldest and Independent 3<sup>rd</sup> party testing company will open its 4<sup>th</sup> Textile Testing Laboratory in India by April 2015.

Texanlab test wide range of products from Dyes, Yarn, Apparels, Home Textiles, Accessories, Leather & Footwear's and Jewellery. Texan lab tests all physical, colour fastness, functional, test for organic textiles and Restricted Substances including REACH & CPSIA related tests.

Currently Texan laboratory has Testing Laboratory at 3 locations in India at Gurgaon, Mumbai and Salem and work with many global brands & retailers. With opening up of 4<sup>th</sup> laboratory, Texanlab will cover all key textile locations in India.

The new laboratory will open up at Jayashree Building , Amarjothi Garden Layout , Railway Feeder Road , Tirupur & will have full capability for Physical and Colour fastness testing to cover the requirements of European and US customers.

“This move has come from long pending demand of our clients in southern India market and a push from global Retailers with whom Texanlab have long term business” emphasised Mr. Vinod Kumar, General Manager of Texan Labs India.

We will expand, develop new capabilities, build Trust, Focus on customer services and quality as our key goal and objectives. This is our vision to grow in market place and support our clients with unmatched services levels.
